

I chose this appliquéd basket because it represents the Basket Row Quilt done in this group. I saw someone's completed quilt the first time I came to this group, and was very impressed. That year was also the year the Alpine group was doing Jeanna Kimball's small appliquéd blocks, which I loved as appliquéd is my favorite thing. Those two things, plus the entertaining duo "Paula and the Sheriff" made me want to come back for more! I fell in love with this group from the beginning and have been hooked ever since!

*The idea for this block came from "Two Peas in a Pod". The pattern had a star appliquéd on the basket. I decided to leave the basket plain for you to add anything you wish to make it your own. You could add a heart, flower, leaves, the year, or just leave it plain. It's up to you.
